

NIKHITA SHANKAR

Bay Area, CA | Open to relocate | +1 (447) 902 6109 | nikhita.shankar97@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data-driven analytics and engineering professional with 5+ years of experience and an MS in Business Analytics, Data Science & Engineering. Proven track record building trusted data products, scalable pipelines, executive BI, experimentation, and AI-enabled applications across fintech, manufacturing, pharma, and energy. Experienced in translating fragmented data and manual processes into decision-ready analytics that support multimillion-dollar business outcomes.

CORE SKILLS

Analytics & Experimentation: SQL, Python, R, A/B testing, statistical modeling, forecasting, root-cause analysis

Data Engineering & Cloud: dbt, Airflow, Snowflake, BigQuery, Microsoft Fabric, Databricks, AWS/S3, SparkSQL, PySpark, ETL/ELT

BI, AI & Automation: Power BI, DAX, Power Query (M), Tableau, IBM Cognos, Power Apps, Power Automate, GitHub Copilot, Streamlit, Git

PROFESSIONAL EXPERIENCE

Data Engineer

Sep 2025 - Present

Obvience (Microsoft Partner)

Remote, United States

- Built Fabric pipelines across 5+ Finance, Sales, and Operations sources, standardizing enterprise data and improving reporting accuracy 30%.
- Automated SQL/Python checks for nulls, stale data, reconciliation, and pricing gaps across 20+ tables, preventing BI errors and saving 10-12 QA hrs/wk.
- Built Power BI semantic models, 250+ DAX measures, and executive dashboards, reducing conflicting KPI outputs and repeat questions 40%.
- Built a Fabric sales planning & forecasting app with Node.js/TypeScript and DAX, cutting planning from ~2 weeks to <2 days for a \$400M+ sales portfolio.

Data Analyst II

May 2023 - May 2024

Hyperplane (FinTech, acquired by Nubank)

Remote, India

- Analyzed 10M+ customer, transaction, and event records with SQL/Python and Tableau, uncovering funnel, retention, pricing, and journey trends across 3 products.
- Ran 12+ A/B tests with Product using Python significance testing and Tableau, identifying a 4.2% conversion lift and cutting reviews 20-25%.
- Built AWS Glue/S3, Databricks, PySpark & Airflow pipelines for 200K+ monthly transactions, cutting processing time 35% and saving 20+ hrs/month.
- Mapped null-ID, duplicate, and schema-drift failures with Product and Engineering, then added SQL/Python/dbt tests, improving usable data 20%.

Data Analyst & Engineer

Jan 2020 - Apr 2023

ExxonMobil

Bangalore, India

- Built Snowflake SQL pipelines reconciling 6M+ SAP and Salesforce records with Finance, protecting \$1M+ monthly reporting at <0.01% error.
- Developed Snowflake SQL models behind Tableau profitability reports, cutting Finance delivery from 4 hours to 30 seconds for 150+ users.
- Collaborated with Finance and Sales to standardize KPIs across 9 Salesforce/Tableau reports, giving 150+ users visibility into \$8.5M savings.
- Created unified customer, pricing, and model-score datasets with Sales and Pricing teams, surfacing \$2M in revenue opportunities.
- Built Power Apps/Power BI pricing workflows and a Python recommendation model, supporting \$2.18M monthly profit and lifting conversion 20%.

EDUCATION

University of Illinois Urbana-Champaign

Aug 2024 - May 2025

Master of Science in Business Analytics, Data Science & Engineering - GPA: 3.96/4.00

Champaign, Illinois

Relevant coursework: statistical modeling, experimental design, machine learning, and data engineering

R V College of Engineering

Aug 2016 - Sep 2020

Bachelor of Engineering in Computer Science and Engineering

Bangalore, India

INDUSTRY ANALYTICS CAPSTONES

Data Scientist

Jan 2025 - May 2025

Wolters Kluwer Clinical AI Capstone | UIUC

Champaign, Illinois

Python, BigQuery, GPT-4o, Gemini, Streamlit

- Built a Python/BigQuery AI workflow for 20 clinical cases, testing retrieval and model outputs to improve diagnostic accuracy and decision support.
- Analyzed retrieval and model errors across GPT-4o/Gemini outputs, improving first-choice diagnostic accuracy and overall result quality.

Business Analytics Lead

Aug 2024 - Dec 2024

Colorado West Healthcare HR Analytics | UIUC

Champaign, Illinois

UKG, IBM Cognos, HR Analytics

- Mapped manual UKG reporting gaps with HR stakeholders and built 5 IBM Cognos dashboards, eliminating 10 hours of recurring reporting work each week.
- Analyzed staffing and overtime patterns with HR leaders, surfacing scheduling opportunities that helped reduce overtime 15%.

ACHIEVEMENTS & CERTIFICATIONS

AI Hackathons: First Place Globally, Zerve x HackerEarth; Second Place, Zerve x ODSC AI Datathon, Boston

Certifications: AWS Certified Cloud Practitioner - [Verified Credential](#)

Honors & Awards: Beta Gamma Sigma; ExxonMobil Bright Beginner, Top Performer, Quarterly Recognition Awards
